

# 2,000 REASONS TO RUN

Heart for Africa is partnering with the local churches in Swaziland to identify and reach out to 15,000 of the estimated 200,000 children who have been orphaned by the AIDS pandemic that is killing this tiny nation. There are **8,000 new orphans every month** and an estimated **15,000+ orphan headed households**. The average life expectancy is 29 years and without immediate intervention it is believed that there will be no adults by the year 2020.

We are inviting 15,000 orphans and vulnerable children to 4 hours of inspirational praise and worship at the Somhlolo National Stadium in Swaziland on July 23, 2010 where they will receive a blanket, shoes, a bible, beanie hat, seed packs, water and food.

The cost for one child to come to this event is only **\$10.00 (transportation costs)**. Our goal is to raise the fund for 2,000 orphans to attend this event. Please sponsor me today help us change the face of Swaziland by giving generously.
